Christmas Catalogue

Bring lasting
hope to someone
like Suryakala
this Christmas

Through Really Good Gifts you can choose to
provide the cure, practical courses and a route
into work for someone like Suryakala.

www.reallygoodgifts.org.nz

It's Really Easy

to give Really Good Gifts

Inside each card, you can read how your gift can bring positive impact to the life of a person affected by leprosy.

If you have any questions about how Really Good Gifts works please visit leprosymission.org.nz/FAQ.

Easy as 1, 2, 3.

1

Choose your gifts from the catalogue

These 29 gifts will delight your family and friends, while curing, caring for and restoring the lives of people in poverty who are affected by leprosy.

2

Place your order

- in one of three ways:

- a) complete and return the order form at the back of the catalogue;
- b) order online at:
www.reallygoodgifts.org.nz or
- c) call free on **0800 862 873**.

3

Receive your Really Good Gift Cards before Christmas

We need to receive your order by December 15th so we can send your Really Good Gifts Cards for you to give to your friends and loved ones for Christmas. If time is running out please phone us now on 0800 862 873.

Covid Emergency Kit

For people affected by leprosy who rely on daily wages and have no other assistance during lockdown, your gift is a blessing. Your gift will help provide essential food supplies, hand sanitizer, masks and trusted covid information for a whole family affected by leprosy.

\$45

Sewing Kit

Sewing Kit: A simple sewing kit can give someone affected by leprosy the chance to work and earn a living again. By stitching and mending clothes a girl will be given a vocation, and a woman will be able to support and look after her children. It is a truly wonderful gift.

Lakhi's Story

Lakhi makes beautiful embroidery with hands that have been severely affected by leprosy. A sewing kit and training have given her the confidence to use her talents.

\$20

Cure

Cure – a month of medicine access: Your Really Good Gift enables a person affected by leprosy to access a month of medicine to be cured from this dreadful disease, but cannot afford without you. If leprosy treatment with multi-drug therapy is started early enough, longterm disability can be completely avoided.

School Bag

School Bag: A school bag and writing materials will help a child recovering from leprosy to feel they belong at school and help them take pride in their work. An education is their best means of escaping poverty and improving their future prospects.

\$10

\$1100

Residential Scholarship

Residential Scholarship: An education is the most valuable asset a young person can attain. This incredible gift covers an approved course, accommodation and all living expenses for one child for a year. More importantly, it gives someone affected by leprosy the means to earn an income and support themselves for a brighter future.

Adiya's Story

Adiya received a residential scholarship to do a computer course which she is enjoying a lot. The scholarship will pay for her accommodation and living expenses for one year.

Cure One

\$432

Cure One: Transform the life of one person living in poverty, affected by leprosy. Your gift covers disease detection, treatment with medicine to cure, plus medical care where necessary such as surgery or physiotherapy. Your gift also has the power to restore that person back into their community, through support, education or help with livelihood.

Gift of Sight

The Gift of Sight:

Blindness in poverty is a disaster – even more so when leprosy numbs your nerves so you cannot even feel your way. What a blessing, then, when leprosy related blindness can be prevented or reversed through surgery. Your gift will restore sight and hope.

\$90

No Child with Leprosy 2035

\$10

Give the gift of contact tracing: providing access to one dose of rifampicin to close contacts of people diagnosed with leprosy. You will help prevent leprosy transmission and bring us closer to the goal of No child with Leprosy by 2035.

Prosthetic Limb

A Prosthetic Limb: Leprosy can cause a tragic cycle of disability: damaged nerves lead to injuries, burns, infections, sometimes resulting in the loss of a limb. What an extraordinary difference your gift of a prosthetic arm or leg will make.

\$550

\$21

Protect a Nurse: Hospital and medical staff are the heroes of this pandemic. Your gift will provide essentials such as N95 masks, face shields, PPE gowns and gloves. You will help protect them as they provide vital care to people affected by leprosy and vulnerable communities during this pandemic.

Protect a Nurse

\$220

A Hospital Bed: Every hospital bed is precious. Your gift will keep on giving for many years to come, providing rest and recuperation for hundreds of people affected by leprosy.

Hospital Bed

\$550

Reconstructive Hand Surgery: Left untreated, leprosy results in hands becoming rigid, clawed and unusable. The tasks we take for granted become impossible. Your gift of highly skilled, delicate reconstructive hand surgery will give someone the chance to get to grips with life again.

Hand Surgery

\$15

A Day in Hospital: On Christmas Day you can say to a friend or relative, "you have paid for someone to stay for a whole day in a leprosy hospital. They could never have possibly afforded this without you." Your gift will help them overcome serious disabilities and rejoin their community.

A Day in Hospital

Protective Sandals

Protective Sandals:

If leprosy is left untreated it can damage the nerve endings that warn us when we hurt our feet. Unable to feel pain or irritation, feet become injured and disabled. Your gift of micro-fibre sandals with soft padding will protect feet for years. This is vital, especially for children, so they can step into adulthood with healthy feet.

\$10

Pavi's Story

Pavi pressed down on the soft rubber base of her sandals to show how comfortable they are. With leprosy damaged feet, Pavi's sandals are a lifeline, enabling her to get out and about.

Foot Surgery

Reconstructive Foot Surgery:

Leprosy can lead to 'drop foot', where the ankle no longer lifts the foot to prevent stumbling while walking. With this amazing gift of reconstructive foot surgery and physiotherapy, you will help someone walk again. Without this gift, a person in poverty with leprosy will never be able to afford to step back into a fulfilling life.

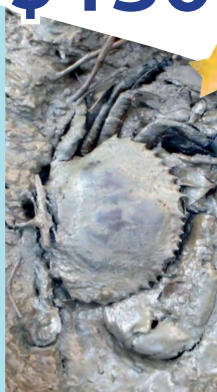

\$615

Crab Farming

A Leprosy Mission livelihoods project in PNG has worked in a community to set up a crab farming business. Where before people would hunt for crabs now they are growing crabs creating a sustainable source of food and income for the whole village. With willing markets in Asia this has exciting potential for other communities.

\$130

A Sewing Machine

\$150

A Sewing Machine:

Sewing is the vocation that will never go out of style, but how can a person sew when their hands and feet have been affected by leprosy?

This wonderful sewing machine is adapted to their needs. Your gift will give them all the equipment they need to earn a living for life.

Education for a Girl

Education for a Girl:

Girls in poverty often miss out on school. Even more so for girls affected by leprosy. Your Really Good Gift will pay her fees for a year. She will learn to read, and write, develop self-confidence and go on to have an opportunity to learn a trade. Your gift will empower her for the rest of her life.

\$83

Back to School

\$46

A Back to School Kit:

Schools often turn away children from leprosy affected families, but the Leprosy Mission works hard to open school doors. Because leprosy makes life in poverty even more difficult, families cannot usually afford school materials, but your Really Good Gift provides a uniform, books and pens for a year. A child's best chance of escaping poverty is school.

Research 2035

\$265

Be part of the team researching new and innovative ways to reach the goal of No Child with Leprosy by 2035 with your gift to Research 2035. Research projects include leprosy screening tools and contract tracing innovations. Your gift of research is vital to seeing a world where leprosy is defeated for good.

A Dairy Cow

\$217

A Dairy Cow: Just imagine how your wonderful gift of a cow will bless the life of a family affected by poverty and leprosy. Your cow will give them milk, transport, manure for growing crops, and a complete change in their community standing. Your gift also includes their training in animal husbandry and support to make a dairy business that's truly sustainable.

A Goat

A Goat for a Young Person: If your loved ones include animal lovers, they'll be thrilled that a goat has been given in their name. Happily nibbling away at weeds, leaves and scraps, your goat can be the start of a breeding herd and a sustainable income for a family suffering from leprosy and living in poverty, producing lots of young goats for sale.

\$75

A Piglet

\$92

A Piglet: Like goats, pigs are cheap to feed, easy to care for and don't use much space – so they are a great blessing for poor families struggling with disabilities caused by leprosy. One piglet becomes a breeding sow and soon there are lots of pork and piglets to sell: food for the family and valuable income.

A Fish Farm

\$35

A Fish Farm: This is a gift for many families, because everyone in a leprosy-affected village can share in the blessings of turning the village pond into a fish farm. Your Really Good Gift gives them their first stock of fish and food. Before long your gift will be a sustainable source of food and income for the whole village.

Vegetable Seed Hamper

A Vegetable Seed Hamper: This gift will provide a range of hardy seeds for fantastic vegetables, along with advice on how to grow a bumper crop. For a family left impoverished and hungry by the consequences of leprosy, this means a source of nutritious food and the chance to earn an income at a market stall.

\$24

Counselling

A leprosy diagnosis can cause as much mental anguish as its physical impacts. People affected by leprosy often face terrible discrimination and stigma. Trained counsellors work helping a person to overcome their feelings of rejection and give back them back a sense of self worth.

\$55

Health Volunteer

\$100

Train a Health Volunteer: Your gift enables a village health volunteer to be trained for two weeks, learning the foundations of public health. Because of you, a whole village will benefit from having someone to diagnose and find help for the diseases that threaten their lives, including malaria, TB, typhoid, cholera ... and leprosy.

David's Story

David is a Village Health Volunteer in Bougainville he says 'I am proud that leprosy is caught early and there is no child with disability from leprosy in my village'

A Tradesman's Toolkit

\$40

A Tradesman's

Toolkit: Someone in poverty affected by leprosy might dream of a trade, but the price of tools is out of their reach. Your gift includes everything they need to start working and earning, along with really good training from the Leprosy Mission. You are giving them a productive career, plus a whole new standing in the eyes of their community.

Vocational Training

\$600

Vocational Training

Fees: For people in poverty, leprosy attacks their most basic ability to earn a living by hand or on foot. Yet they cannot afford to pay for training in a trade where their disabilities won't matter. So your gift of a training course will last them a lifetime, earning income, independence, dignity and respect.

Messages of Joy, Love and Hope

I am delighted to present to you the Really Good Gifts catalogue for Christmas 2021, inside you will find a selection of life changing gifts through which you can share a message of joy this Christmas.

This year the pandemic brought another year of uncertainty in each of our lives but I pray you are filled with the certainty of His love throughout this Christmas season.

Surayakala as a young girl faced discrimination and disability because of a diagnosis of leprosy. But her story is one of hope where impossible dreams can come true. Many of the items in this catalogue are gifts Surayakala received.

This year despite the challenges of Covid Surayakala and her family are safe. We were able to make an order for felt Christmas decorations from Surayakala's workplace and you will receive one as a special gift when you who make an order from this catalogue.

I do hope, like me, you enjoy reading through this catalogue and taking the time to choose a Really Good gift for someone like Surayakala. You will be making impossible dreams possible.

Gods blessings.

Gillian Whitley
Executive Director

P.S. Inside this brochure, you will find Really Good Gifts you can order for someone like Surayakala. With each gift donated you receive an illustrated Christmas card by artist Lizzy Standbrook and every order received comes with a special gift of a handmade felt decoration. Please place your order today before the 15th of December.
